- Service

Vision

The Oldham County Police strives to maintain the highest standards of excellence utilizing technology and training to create a safe environment for the citizens of Oldham County.

Mission

“....to prevent, reduce, and deter crime and the fear of crime; enhance highway safety through education and enforcement; safeguard property and protect individual rights.”

2005 Annual Report

For The

Oldham County Police Department

Colonel D. Michael Griffin
Chief of Police

FORWARD

It gives me great pleasure to submit the **2005 Annual Report**, which highlights the many activities and accomplishments of the Oldham County Police Department. The purpose of this document is to provide you with information concerning the Police Department with respect to its mission, organization and significant achievements made during the 2005 calendar year.

The Oldham County Police Department continues to utilize grant monies when grant funds are available. The department works closely with other law enforcement agencies and departments within the county and citizens groups to provide a high quality of professional law enforcement services to all of our citizens.

As you will see from the reviewing the 2005 Annual Report, the Oldham County Police Department is called upon to respond to a variety of situations. One of the measures of a quality law-enforcement agency is its training and I hope this comprehensive report will assist you in understanding more about the Oldham County Police Department and the role that consistent, high-quality training plays in quality policing.

The department continues its review of all policies on a regular basis, as well as a review to ensure compliance with the standards of accreditation. The accreditation program is a rigorous process, which requires the agencies to not only have policies in place but have proof of compliance. Of the more than 240 agencies in Kentucky the Oldham County Police Department is one of only sixty that has obtained accreditation compliance. It is the only law enforcement agency in Oldham County that has achieved this level of standard.

January 1, 2006, marked the Department's 28th year of providing law-enforcement service to the community. The Oldham County Police Department continues to strive to provide the best in law enforcement services in a competent, efficient and effective manner. Every police officer is committed to that goal and we are extremely proud of our Department and its personnel. It is our hope that the citizens of Oldham County share that pride.

Citizens are always welcome to contact the Oldham County Police Department at (502) 222-1300 concerning any additional information about any our programs or activities. The Oldham County Police Department would like to take this opportunity to thank each of you for your continued support.

Michael Griffin
Chief of Police

10-99 Report

10-99 forms are completed for activity tracked by our Agency related to runs or assignments that requires no formal report such as a Uniform Offense Report. A review of the 10-99 reported activity by the Oldham County Police Department during the 2005 calendar year revealed that there were a total of 25,294 of these types of activity resulting in a total 13,147 hours of man allocation.

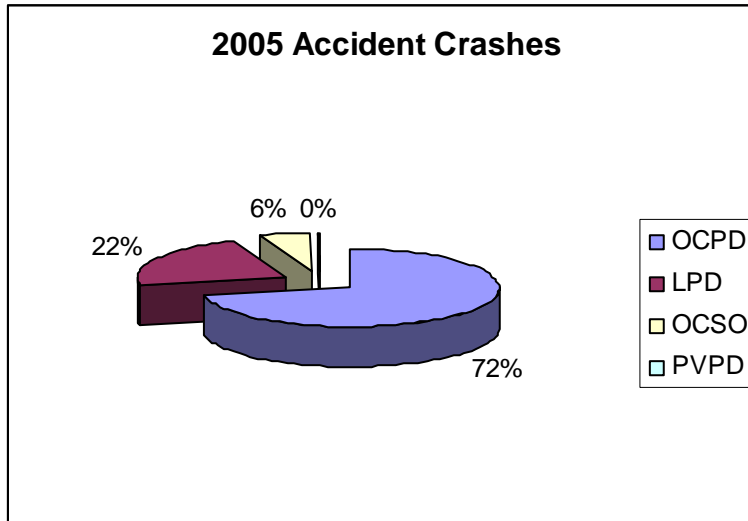

There were 8,768 requests for extra patrols by citizens of Oldham County. Normally, these types of activities are homeowners complaining about speeding on their street or subdivision. This was followed by 3,980 crime prevention details and 350 false alarms.

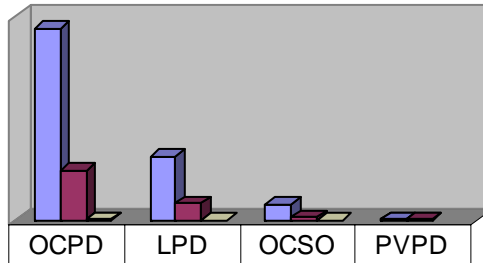

Accident Data

In 2005 there were 1,000 motor vehicle crashes which occurred in Oldham County. 191 were injury collisions with 268 persons injured. In 2005 five people were killed on our roadways.

Oldham County Police investigated 72% or 715 motor vehicle crashes, 76% or 148 of the vehicle injury traffic crashes while investigating 100% of five fatal crashes. LaGrange Police investigated 22% or 222 motor vehicle crashes, while investigating 18% or 51 of the vehicle injury crashes. The Oldham County Sheriff's Office investigated 6% or 56 motor vehicle crashes, while investigating 5% or 9 of the motor vehicle injury crashes. The Pewee Valley Police Department investigated three motor vehicle crashes which included one injury crash.

Injury	146	51	9	1
Fatal	4	0	0	0

Automotive Report

Currently, the Oldham County Police has a complement of 35 vehicles, 32 of which are used on a daily basis. Of these 35 vehicles 22 are marked units, two Semi-marked, ten are unmarked units and one is used as a special projects vehicle. In previous years each of our patrol vehicles have traveled on average 20,000 miles per year, placing approximately 80,000 miles on a unit over a four year period at which time we take them out of service. Once they are out of service they may be used elsewhere in county government or sold as surplus.

Automotive records indicate that we drove a total of 639,933 miles. Our total fuel cost was \$96,250 while maintenance cost was \$29,030. Fuel cost per mile to operate our fleet was 15 cents, while our actual operating cost per mile was 20 cents.

In reviewing mileage per shift, records indicate that first shift averages 19,500 miles per year, second shift averages 18,500 per year, third shift averages 14,000 per year, School Resource Officer's average 12,000 per year, the supervisor's (sergeants) average 23,000 per year, while the administrative staff averages 15,500 per year. The average mileage per patrol vehicle is 16,300 per year.

Currently our agency has two (2) pool vehicles which are frequently used several times a week for short periods of time. Pool vehicles are essential to an Agency our size. They are used when vehicles are in for maintenance, repair, accidents, etc.

We also have a marked Special Response Vehicle which stores special equipment used by SRT, Accident and Fire Investigators.

Building

In September of 2004, the Kentucky Office of Homeland Security gave formal approval to a grant request from the Department of Criminal Justice Training (DOCJT) for a one-year program to expand and implement the Kentucky Community Preparedness Program (KCPP). This is a program developed by the Department of Criminal Justice Training in partnership with the Kentucky League of Cities, the Kentucky Association of Counties, the Kentucky Law Enforcement Council, the Kentucky Association of Chiefs of Police, the Kentucky Sheriff's Association and the Pollution Prevention Center at the University of Louisville.

The KCPP is a program which has been designed by the DOCJT to utilize trained teams of assessors certified in Risk Assessment Methodology for Communities (RAM-C). These trained team members worked closely with local law enforcement leaders and community officials to identify and analyze existing community vulnerabilities and provide recommendations to eliminate or mitigate those vulnerabilities.

Sixty small and medium-sized communities throughout Kentucky were identified based on a set of criteria for assessments. The DOCJT assembled seven-member RAM-C teams. These teams visited the selected communities for a one-week period during the 2005 calendar year working closely with local law enforcement and community leaders to conduct a community vulnerability self-assessment, followed by a formal assessment by the assessment team. These assessments examined potential community vulnerabilities, identified specific targets, analyzed the community's existing security policies and protection systems, and presented a vulnerability analysis along with recommendations to improve security.

Oldham County was one of the sixty communities in Kentucky selected for assessment. Our Headquarters was one of the facilities selected to be examined for existing security policies and protection systems.

Security improvements recommended by the assessment team included to add additional cameras to our lobby area, lower office area and rear door entrance; add an additional lock from the lobby entrance to the lower office area; door closures were added to both internal doors which require pass codes to enter. Building bollards were also placed in the front of our building. Each of these security recommendations have been met by our Agency.

CID Unit

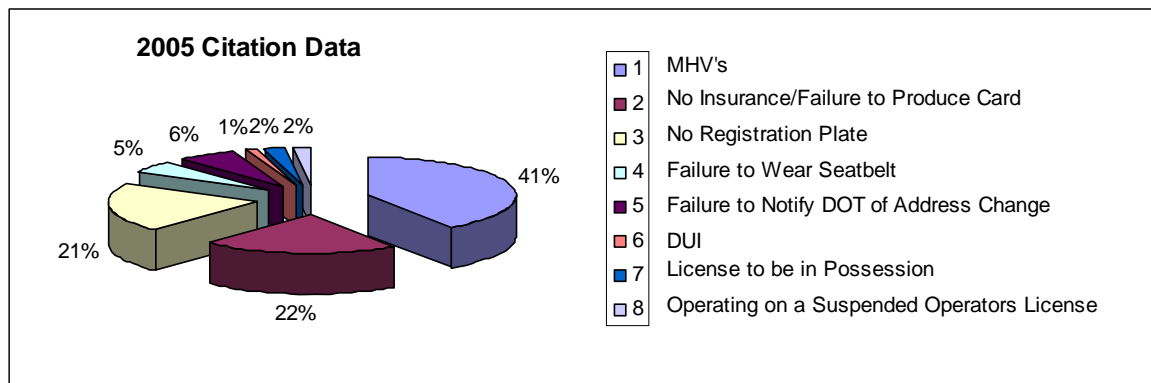

The following is a breakdown by case type worked by Oldham County Police Detectives. The total includes cases initiated by detectives and those cases adopted from patrol officers, for follow-up investigation.

Citizen's Academy

The Citizen's Academy was developed to provide a better understanding between citizens and the police department through education. The academy has been expanded to include a variety of members of the criminal justice system. Information is provided to academy participants about a wide variety of law enforcement functions by the personnel who perform the services.

Discussions between the citizens and police officers create an understanding that citizens can take back to their communities. Participants are expected to share the realistic view of the police and other departments in the justice system with other citizens to improve the efficiency of law enforcement in the county.

The purpose of the program is to provide information to Oldham County citizens so they can make informed judgments about the criminal justice system. Proper understanding can dispel common suspicions and misconceptions and increase police-community cooperation. The police department, in return, becomes more aware of the feelings and concerns of the community.

Classes will include criminal investigations, patrol, K-9, crime prevention, emergency management, use of force, evidence procedures, traffic enforcement, search and rescue, firearms training, personnel, and the drug task force. Additionally, instructors from other agencies involved in criminal justice will present classes on 911 dispatch, the prosecutor's office, public defenders, and the court system.

Over previous years there have been six classes with seventy-eight participants who have successfully completed the course. Currently there are twenty-four people who are registrated members of the Citizens Alumni and remain very active in our community.

The academy meets one evening for 10 weeks for 3 hours and is limited to 25 participants. The academy requires a substantial commitment. Participants are required to attend nine of the ten sessions to successfully complete the academy and receive a Certificate of Completion. There is no charge for the academy and all materials will be provided.

PARTICIPANTS MUST BE AT LEAST 18 YEARS OF AGE. Younger applicants may be considered on a case-by-case basis. Application's may be obtained electronically, by mail or in person should be returned it to the Oldham County Police Department.

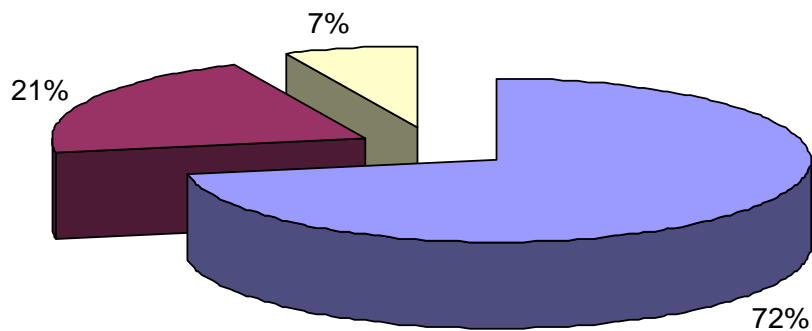

Dispatched Runs

In reviewing the dispatch data obtained from Oldham County Central Dispatch, records indicate that the Oldham County Police Department make 62.14% of the runs while the LaGrange Police Department make 23.28% and the Sheriff's Office make the remaining 14.58%.

Central Dispatch rates a run using a priority system, 1 being the highest priority. Priority data indicates that "5" is the greatest type of activity produced by law enforcement. These same records for 2005 indicate that Oldham County Police were busiest on Friday, Saturday, while the LaGrange Police were busiest on Thursday, Friday, with the Oldham County Sheriff's Office busiest on Tuesday and Friday.

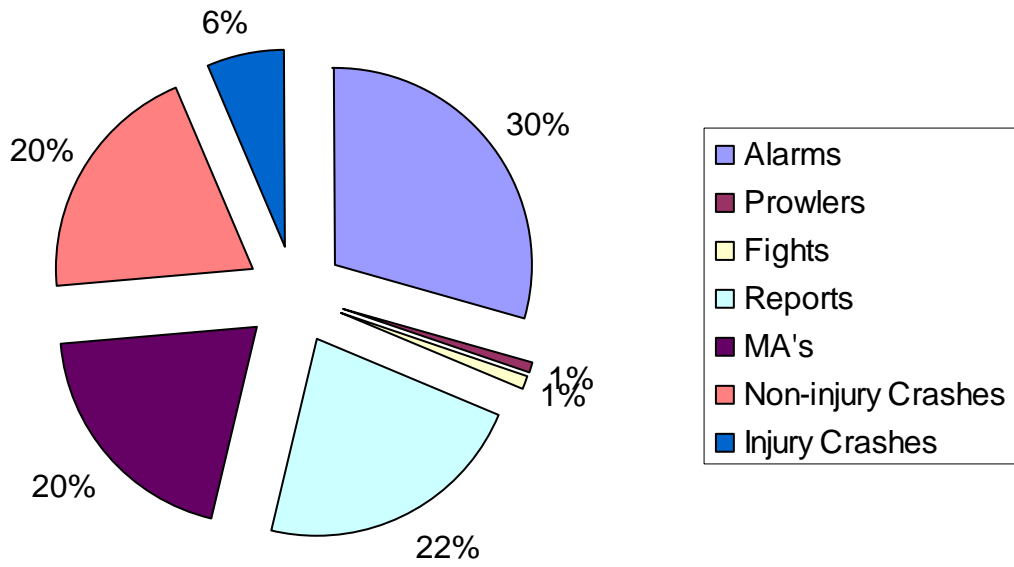

The Oldham County Police Department employed a full time workforce of 32 officers with 3 civilian support staff while the Sheriff's Office employs 16 full time officers, 4 part time officers and 2 civilian support staff, while the LaGrange Police Department employs 11 officers and 1 part time civilian and part time ordinance officer. The 2005 operating budget for the Oldham County Police Department was \$2,683,810 while the Sheriff's budget is \$2,018,430 while the LaGrange Police Department budget is \$1,040,360. These budget figures represent both sworn, part time and support personnel.

Domestic Violence

Domestic violence is a pattern of behavior used by someone to establish power and control over another person through fear and intimidation. It happens between people who are, or have been, in an intimate relationship. Domestic violence often includes the threat or actual use of violence. It happens when one person believes they are entitled to control another.

Domestic violence can take many forms. In many cases the behavior amounts to a criminal act. It is also a unique crime because there is usually a pattern of abuse over time, unlike, for example, when a robbery occurs one evening. Domestic violence tends to be repeated with more frequency and more severity.

Domestic violence can include emotional abuse, such as name-calling and put-downs, and economic abuse, when one person uses money and finances to control the other. Often an abusive partner may be sexually abusive, use or control the children, or threaten, isolate, or intimidate the other. All of these behaviors are used to maintain fear, intimidation and power.

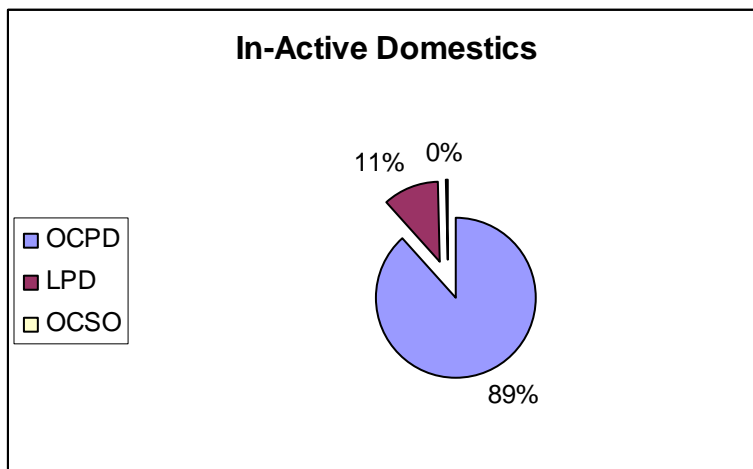

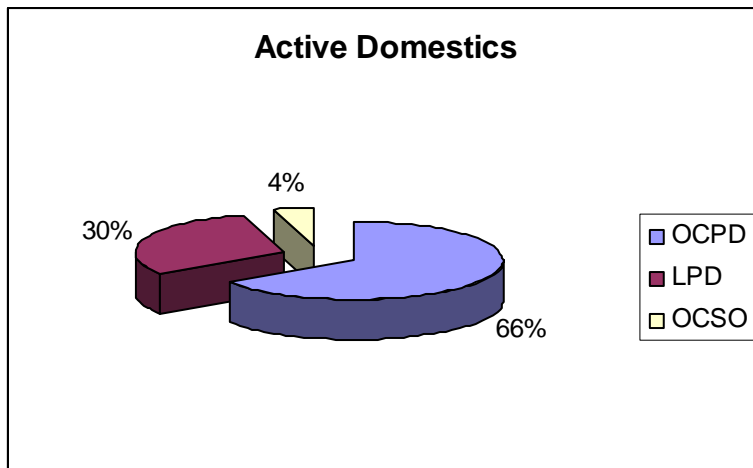

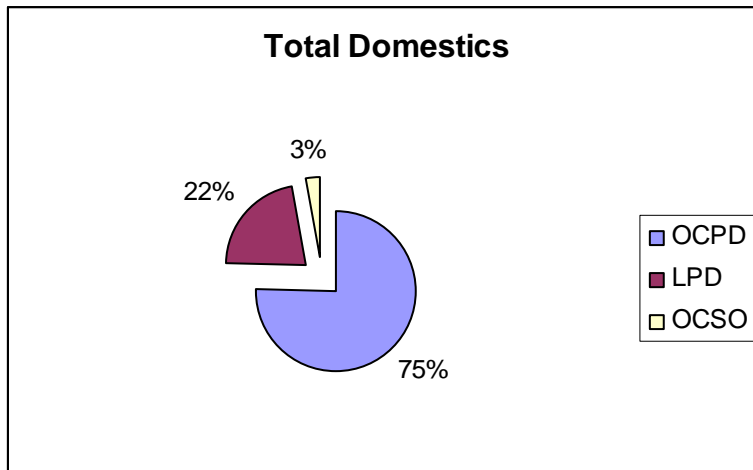

Although not all of these behaviors are against the law (such as in cases of emotional abuse without physical harm), none of them are acceptable; Nobody deserves abuse. In all cultures, the perpetrators are most commonly men, and women are usually the victims of violence.

The Oldham County Sheriff's Office Domestic Violence Unit was enacted on January 01, 2003. Through a Federal grant the Sheriff's Office has assigned an Investigator to follow up on the domestic violence runs that our Patrol Division responds to. Second to none, the Oldham County Police Department responds to approximately 70% of all the domestic runs in Oldham County. The high rate of incidence and the potential for violence in these calls demand a diligent police response. The complex nature of this crime requires specialized training for proper investigation. The time and effort needed to accomplish this task is best conducted through a specialized Domestic Violence Unit.

The DVU is responsible for follow-up investigations of all domestic violence calls received by our Department. They coordinate victim assistance with the use of Victim Advocates from the Center of Women for Families. The DVU compliments the efforts of the Oldham County Police Department by investigating domestic violence cases and preparing them for trial.

A review of Domestic Violence incidents indicate that law enforcement were dispatched to 661 in 2005 compared to 483 in 2004 runs, an increase of 36.85 percent, with 379 in progress compared to 74 in progress upon arrival. Oldham County Police responded to 497, while LaGrange Police responded to 146 and the Oldham County Sheriff's Office responded to 18. Oldham County Police

arrived at 249 active domestics, while LaGrange arrived at 32 and the Oldham County Sheriff's Office arrived at 1.

Drug Forfeiture

The Oldham County Police Departments' partnership with the DEA continues to be beneficial for the Oldham County Police Department and the citizens of Oldham County.

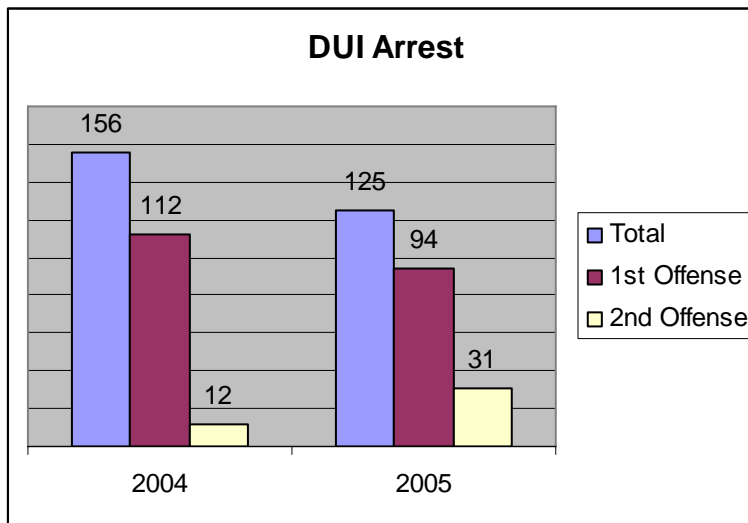

Funds received from this partnership have allowed the Oldham County Police Department to purchase equipment which normally we would be unable to buy due to budget restraints. An example of utilization of these funds is the equipping of the entire Oldham County Police Department with Taser devices, with the entire cost of \$26,000 coming from drug forfeiture money.

Our involvement with the drug task force in 2005 generated \$31,610 in revenue for Oldham County Police Department. Currently we have \$15,086 remaining in forfeiture drug money.

DUI Summary

A review of DUI arrests taken by the Oldham County Police Department during the 2005 calendar year revealed a total of 125 arrests were made. 94 of these arrests were first time offenders while 31 arrested were as second time offenders, an increase of 27 percent compared to the 2004 calendar year.

Currently the National Highway Traffic Safety Administration (NHTSA) is funding 50% of a \$26,000 grant to attack ongoing problems such as driving while intoxicated. This is our sixth consecutive year of receiving this grant. With funding through the Highway Safety grant it has allowed the LaGrange Police Department and our Agency to partner and provide over 1,000 hours of additional enforcement hours to Oldham County.

Evidence Room

For purposes of this information, police evidence rooms are storage rooms, areas or buildings controlled by the Oldham County Police Department for securing and retrieving evidence. They are under the control of the Oldham County Police Department. The police evidence rooms contain evidence; property held for safekeeping; such as guns confiscated in domestic violence incidents and money or property from accidents; and lost property found within the local jurisdiction.

The most critical property stored is evidence collected during the course of an investigation into a crime. Evidence plays a vital role in the investigation, prosecution, and conviction of persons who have been accused of criminal acts. Maintaining a proper, well-documented chain of custody and ensuring the integrity of evidence are crucial to successful law enforcement, prosecution, and court operations. Examples of evidence range from DNA and biological evidence that must be specially stored at constant temperatures, to large pieces of evidence such as bicycles and vehicles. Most evidence related to crimes and investigations is returned to owners or destroyed when cases are resolved. In the case of property crimes, the physical evidence is processed for fingerprints and photographed; its serial number is recorded and then released to its owner.

Legislation requires criminal justice agencies to maintain certain evidence for extended periods of time, sometimes forever. For example, the law mandates that all death penalty case evidence be held indefinitely. Evidence from certain homicides, sexual assaults, and serious felonies is secured for a long time. Most video tapes are stored for twenty-six months. Often, the evidence must be kept for the lifetime of a convicted criminal and even beyond, if other individuals could, at some time, be tried or exonerated for the crime. In those property crime cases where no suspect has been identified, evidence is kept for a period prescribed by law for the specific crime.

The security of property stored for safekeeping and found property is equally important as a matter of public trust, even though this property does not enter the judicial system. Much of the found property may be auctioned if the owners cannot be found or do not wish to claim it.

The Oldham County Police Department receives evidence collected at a crime scene and throughout the entire investigation period. Police headquarters has a packaging station for the proper handling and storage of evidence. Packaging has the dual purpose of inhibiting contamination as well as preventing deterioration or destruction. Packaging also assists in efficient warehousing and retrieval. A locker system secures evidence until the evidence technician processes the material for storage or it is picked up for transport to the State Crime Laboratory for analysis. Each year there are approximately 1,000 items to pass in and out of the evidence room.

When major crimes occur, the department's Crime Investigation Division (CID) unit, reports to the scene to ensure that all evidence is properly packaged and labeled. Clothing may need to be dried, paperwork completed, and other evidence examined prior to being forwarded to the evidence room.

In an effort to meet our ongoing needs our evidence and property room became overcrowded and the agency has expanded the need to secure storage by rehabilitating areas within our building. This was accomplished with very little cost to Oldham County.

Oldham County Police developed a policy of not holding found property over 90 days, in order to regularly clear property out of the system, with special attention to bulky items such as bicycles.

Police agencies in Oldham County should explore the development of a common facility within the county for the long-term storage of evidence and property, including biological evidence, and reduce the storage of evidence and property on the police premises to active cases and newly found property.

K-9 Unit

The Oldham County canine unit provides the specialized services of a highly trained canine team to support field units in the performance of their duties. The canine unit assists in the location and apprehension of suspects and items of evidence that may be of value in a criminal case. The canine unit is a specialized unit within the uniformed patrol division. A canine team shall consist of an officer and his/her assigned canine.

The responsibilities of a handler include, but are not limited to, the following:

1. Handlers perform all patrol related functions.
2. Handlers are responsible for the actions of their assigned dog at all times.
3. Handlers are responsible for the proper care of their assigned dog at all times.
4. Handlers respond to dispatched calls for service whether on or off duty.
5. Handlers actively participate in public demonstrations.
6. The handler is responsible to maintain the canine at an acceptable performance level and point out any and all deficient areas to the unit trainer.
7. The handler is responsible to insure that all reports are completed before ending a tour of duty.
8. The handler is responsible for maintaining a log of all the teams training, deployments, community contacts and apprehensions on department approved forms.
9. The handler is uses his/her skills and those of his/her assigned canine to actively deter and detect criminal activity.

In 2005 our K-9 unit generated \$6,150 in drug revenue for Oldham County Police Department. Drug forfeiture allows our Agency the ability to purchase items which normally we would be unable to buy due to budget restraints.

Leave Summary

Oldham County Police employ a work force of 32 sworn personnel, three are command administrators, three detectives with one sergeant, and three patrol sergeants in addition to three civilian support staff.

Reviews of 2005 work records indicate that there were a total of 272 sick days taken by our personnel. It should also be noted that five officers worked the entire year without taking any sick leave.

Beginning July 1, 2003 our Agency starting tracking time adjusted. This is time that has been accumulated by our personnel that exceeds the 40 hours work week. Records from January 1 to December 31, 2005 indicate that we adjusted 451 hours, a savings totaling \$14,012.12 to county government.

In calander year 2004 the total overtime operating costs incurred by our Agency was \$29,022.96, while in the 2005 calander year our overtime costs decreased 1 percent to \$28,551.70.

Less Than Lethal Initiatives

Purchasing Approved for Less Lethal. Through use of drug forfeiture funding TASER devices were purchased during the 2005 calendar year for all members of our Agency. The TASER devices have provided our patrol officers with an alternative to physical force when dealing with subjects who are combative or resisting arrest. This system has allowed the officer to quickly render a combatant helpless, without causing physical injury.

PepperBall Projectiles are plastic spheres that are filled with Capsaicin II powder. A high pressure air launcher delivers the projectiles with enough force to burst the projectiles on impact, releasing the Capsaicin II powder.

PepperBall Projectiles subdue suspects with a combination of kinetic impact and Capsaicin II powder. The sting of the impact of the PepperBall Projectiles causes a psychological impression of being shot, which is combined with the strong irritation of the Capsaicin II powder to the suspect's nose and lungs. When inhaled, the Capsaicin II powder within the PepperBall Projectiles leads to coughing, shortness of breath, and in some instances vomiting. Some individuals experience eye irritation as well. Response to inhaling the Capsaicin II powder in PepperBall Projectile varies among individuals. In most cases the symptoms last between five and 10 minutes. The PepperBall launching system can deliver the projectiles with enough kinetic energy to produce temporary abrasions, bruises, and/or welts.

This system would be effective with armed individuals who have maintained distance from officers. The Pepperball system has been used effectively on subjects armed with knives, clubs, etc. This system is also effective for delivering irritant to areas such as car interiors, small buildings and rooms. While physical force will continue to be necessary on occasion, these less lethal systems will provide practical alternatives that would greatly reduce the risk of injury, to both officers and adversaries.

Less Lethal Training Planned. Each uniform officer has received training and is carrying a Taser device. Ongoing training continues for the ASP baton, Pepper Spray, Cuffing Techniques and Defensive Tactics. These types of training sessions are intended to re-familiarize officers with the basic knowledge and techniques required to deploy these less lethal instruments currently carried by officers. In house instructors continue to train personnel.

Public Information Program

Each week the Oldham County Police Department provides the local media with activity that occurred during the week. Beginning January 1, 2004, our Agency began a new initiative for media releases which are being provided to the media to include a brief synopsis of a crime that our Agency is investigating or a service that we provided to our community. This same information is being posted on the web page each week. In 2004 we provided the local news media with 30 incidents. In our ongoing efforts to continue this process we provided local media with 37 incidents which impacted Oldham County.

In our ongoing efforts to keep the public well informed we will continue to use press releases to launch new programs within the department, major change in any services and bulletins regarding crime.

Racial Profiling

Citizen Contact, detainment and traffic enforcement are valuable means of accomplishing the duties inherent in law enforcement.

As important as these tools can be, the protection of, and the preservation of the constitutional and civil rights of individuals remains the paramount concerns of government and law enforcement in particular.

To safeguard these rights, Oldham County Police personnel do not engage in any behavior or activities that constitutes racial profiling.

The decision of an officer to make a vehicle stop, detain an individual, conduct a search subsequent to a stop, or seize property as the result of stop, shall not be based solely motivated by consideration of race, ethnicity, gender or other similar or individual considerations. Stops, detentions or searches shall be based on articulate reasonable suspicions, observed violations of law, or probable cause shall comply with accepted constitutional and legal provisions, with the Code of Canon of Ethics adopted by the Kentucky Law Enforcement Council through Peace Officer Professional Standards.

Racial profiling data for 2005 indicates that there were a total of 10,301 self initiated contacts made by Oldham County Police. Of that number, 60.78% were male and the remaining 39.20% were female. Of the males that were stopped 86.95% were white, while 8.99% were black, 0.16% American Indian, 0.86% Asian, and 3.03% were Hispanic. Of the females stopped 90.99% were white, 7.55% black, 0.05% American Indian, and 0.64% Asian, and 0.77% Hispanic.

Recovered Property

The rate of recovery in 2005 for the Oldham County Police Department was 83.34% compared to 47.97% in 2004. According to the National Incident-Based Reporting System (NIBRS) which are reported and compiled by the Federal Bureau of Investigation (FBI) the National recovery rate for 2004 was 42.00%. The national recovery rate for 2005 was not available at the time of this report.

<u>Year</u>	<u>Stolen</u>	<u>Recovered</u>	<u>Recovery Rate</u>
2001	\$822,295.35	\$475,120.25	57.78%
2002	\$801,266.38	\$216,394.46	27.01%
2003	\$524,349.85	\$324,109.01	61.81%
2004	\$1,012,653.27	\$485,749.49	47.97%
2005	\$18,695.13	\$15,581.00	83.34%
Total	\$2,166,606.60	\$1,031,204.70	47.60%

SAFE Program

Speed Alcohol Fundamental Enforcement (SAFE) is an overtime program that we have partnered with the LaGrange Police Department. This funding has assisted our Agencies attack the ongoing problem of speeding, drunk driving, and seat belts restraints. By reducing speeding and alcohol related crashes, we should save life, reduce injuries and property damage, as well as reducing the use of alcohol while operating motor vehicles on our roadways.

In addition, programs are conveyed through our local and civic organization, media, and school system during the school year educating students, age 16 to 18 on the described problem with such activities as the alcohol car and the consequences of operating motor vehicles while impaired. In educating the public, we hope to develop a public attitude that speeding cause's injuries, drunk driving is socially unacceptable, and seat belts do save lives.

Funding for 2005 allowed our Agencies an additional 620 hours of traffic enforcement on our roadways. Through our combined efforts we issued 1,392 moving violations; 134 seat belt violations; 3 child restraint seat violations; 1,267 additional citations for various traffic offenses; 4 DUI arrests, and 31 other additional arrests.

Currently the National Highway Traffic Safety Administration (NHTSA) is funding 50% of a \$26,000 grant to attack this ongoing problem. This is our sixth consecutive year of having this grant. We are one of three Agencies who have partnered with another law enforcement agency and one of nine within our division size, 26 - 50 enforcement officers, approved for the Highway Safety Program.

School Resource Program

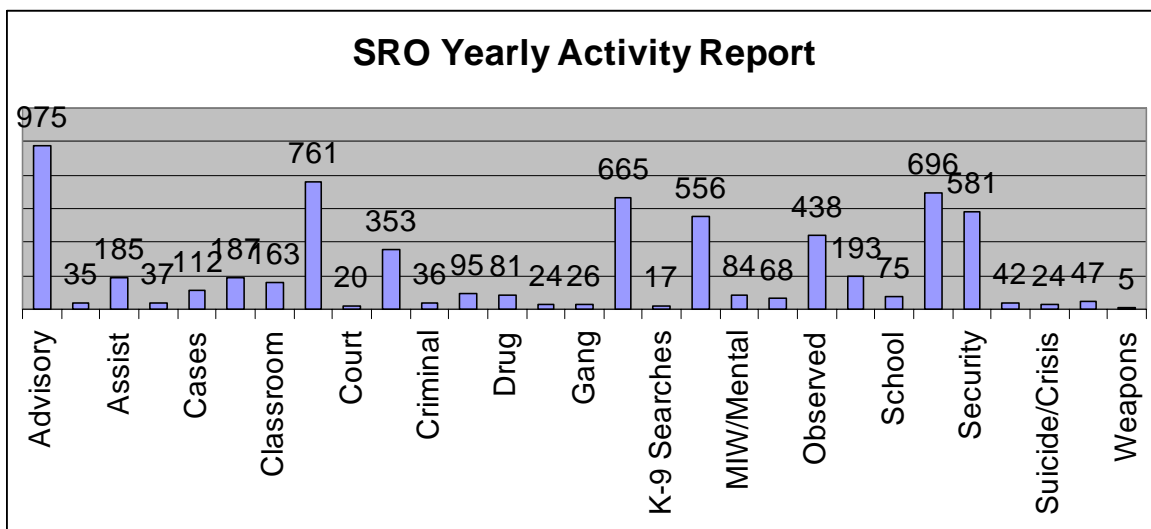

The School Resource Officer Program is a collaborative effort by the Oldham County Police Department, the Oldham County Board of Education, students, parents, and the community to offer law related educational programs in the schools in an effort to reduce crime, drug abuse, violence, and provide a safe school environment.

Currently Officer Ford is assigned to the East Oldham Campus, while Officer Summitt is assigned to the Oldham County Campus, Officer Whittaker to the South Oldham Campus and Officer Patterson to the North Oldham Campus. Currently the Board of Education compensates the police department 75% of officer wages and 100 percent of any overtime incurred.

During the 2005 calendar year, Oldham County Police received approximately \$172,506 in reimbursement cost form the Oldham County Board of Education.

Activity report information compiled by our Resource Officers indicates the greatest number of activities, approximately 15% occur on school property, and are listed as advisory Sessions”. “Advisory Sessions” are identified as conversations in which the School Resource Officers speak to students regarding law enforcement matters.

A review of total SRO records for 2005 indicate that 11.56% involved conflict intervention, with visiting other schools assigned to their area at 20.58% next and informal criminal investigations at 10/10 %.

Support Staff

The work of the Oldham County Police Department is not simply about the uniformed officers serving on the front line. Just as important is the professional support staff working behind the scenes to provide the organizational capability required to police Oldham County. Our three member support staff is committed to providing the highest level of services for the Agency.

Our support staff assists visitors at the police department, deal with phone calls, prepare accident and case reports for officers and facilitate the technology and systems we use daily.

In 2004 our support staff began a cross-training process. Our intentions regarding cross-training were to improve the employee's knowledge, know-how and to enhance their performance. This ongoing process has proven to be very effective. The outcome has been a thirst for knowledge, experience and professional progress. The cross-training strategy has turned us quickly into a "learning organization", resulting in a more effective and efficient operation.

Our support staff is a fully integrated and an essential part of our organization, making vital contributions at every level of the department. As a police department we just wouldn't exist without it.
